DANGEROUS .- The man-traps formed by cellar and foundation excavations for new buildings throughout the city, are very dangerous when not properly covered during the night; as is also the practice on the part of some of our business houses of leaving open their celtar doors after dark. An indictment for nuisance might perhaps save the necessity for a still more serious indictment for manslaughter.

UNITED STATES ARSENAL .- The arms and ammunition belonging to the General Government, and which have been used by the State authorities, are being transferred to the United States Arsenal near this city. Twenty-six thousand stand of arms will have been turned over by General Stone this evening. Several thousand stand are still in the hands of the State militia, and measures will be taken to recover them as speedily as possible,

POLICE COURT. - Six men, for intoxication, were fined \$9 40 each; one paid and five were sent to jail. John Blackburn, for disturbing the peace,

was fined \$12, which he paid. Andrew Ball was brought before His Honor on charge of larceny. He was found guilty of stealing leather from the store of Bristow & Evert, of the value of \$9 75, and was recognized, in the sum of \$200, to appear at the next term of the Circuit Court.

BOUNTY .- A petition is circulating among our citizens regarding the passage of an act by Congress, in 1861, denying the Government bounty of \$100 to those soldiers who were discharged from the service on account of physieal disability before the expiration of two years after their enlistment. The petition has obtained quite a number of signatures, and claims that the Government is in duty bound to repeal said act, and pay the bounty. The intention is for the document to be presented at the present session of Congress.

BILLIARDS AND CRESS .- These two games, which are acknowledged by the entire civilized world to stand pre-eminently above all othersthe first for its beneficial and refining effects over both mind and body, and the latter for its healthful and vigorous exercise of the mindhave now become very popular in refined circles in this country, as they long have been in Europe. T IS A WELL KNOWN FACT THAT THE BLOOD is the carrying vehicle of Life and Health, or of Disease and Death. There may be an excess of certain poisonous materials in the Blood, or there may be a deficiency of its healthful constituents; now by a chemical analysis and a microscopic investigation, the deficiency or the excess is at once ascertained, and thus, by the application of Blood Remedies, the fault is at once remedied; hence the many missendors speads and wooder. edied; hence the many miraculous, speedy and wonder

So many thousands are already acquainted with this, it seems necessary only to say that by this method an equilibrium of the vital powers is at once established, and an equilization of the circulation maintained; thus nature is enabled to throw off the effete matters which generate and foster disease, and health at once ensues.

From one to five minutes are required for the most inveterate cases of any curable Chronic Disease. In many instances a single operation of one minute is sufficient.
